DETAILED ACTION

1. Receipt is acknowledged of Applicant's Prior Art Statement, filed March 25, 2002.
2. Claims 1-53 are presented for examination.
3. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-26, drawn to a dressing tool, classified in class 451, subclass 443.
 - II. Claims 27-45, drawn to a method of fabricating a dressing tool, classified in class 51, subclass 293.
 - III. Claims 46-53, drawn to a method of conditioning a fixed abrasive CMP pad, classified in class 451, subclass 56.
4. The inventions are distinct, each from the other because of the following reasons:

Inventions I and III are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the apparatus can be used to perform another process such as grinding of various surfaces other than polishing pads.

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the

product may be made by another materially different process, such as by applying an abrasive layer directly to the substrate without the use of a mold.

5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication should be directed to Robert Rose at telephone number (703) 308-1360.
